

STORE CANNABIS PRODUCTS SAFELY.

Always keep your cannabis products **locked, out of sight, and out of reach** to prevent accidental consumption by young people and pets.

START LOW & GO SLOW.

Licensed cannabis products come in many different forms and potencies (or strengths). Whether you're new or a frequent cannabis consumer, **START LOW** consuming less than the recommended serving size and **GO SLOW**. It may take up to two hours to feel the effect.

BE MINDFUL WHEN SMOKING.

Keep it away from others. Remember, you cannot smoke or vape cannabis inside a motor vehicle, a private business, a hookah or "cigar bar," or any place where smoking is not allowed.

DON'T DRIVE WHILE HIGH.

If you feel different, you drive different. Driving under the influence of cannabis is illegal. Be safe and responsible - make a transportation plan before you consume cannabis.

LICENSED CANNABIS PRODUCTS WILL HAVE THESE THREE COMPONENTS ON THEIR LABEL

A QR code or link to a website will also be available with details on the product's lab testing.

For more information, call 1-888-OCM-5151
